Theme for mermaid diagrams

The theme can be set in the YAML header of the Quarto document. The theme can be set to one of the following: default, forest, dark, neutral, base, or custom. The theme can also be customized using themeVariables.

The themes, roughly:

- default: standard Mermaid look
- neutral: cleaner, more publication-friendly
- dark: dark background styling
- forest: green-toned theme
- base: customizable theme, best when using themeVariables
